Disegno tecnico (Vista laterale)

A=B

1 Per versione 1

1.1 Rimuovere i blocchi anti-sgancio e fissare il carrello al muro

1.2 Montare guida a terra

1 Per versione 2

1.1 Rimuovere i blocchi anti-sgancio e fissare il carrello al muro

1.2 Montare guida a terra

1 Per versione 3

1.1 Rimuovere i blocchi anti-sgancio e fissare il carrello al muro

1.2 Montare guida a terra

2

Inserire la guida a terra nella fessura e agganciare la porta al carrello.
 (Il carrello deve essere posizionato al centro del binario superiore della porta)

1. Inserire la guida a terra nella fessura inferiore
 nella fessura inferiore

2. Tenere la porta leggermente più alta assicurandosi che le ruote del carrello vadano dentro il binario

**3**

Ruotare la vite per regolare l'altezza delle ruote, affinché esse combacino perfettamente al binario

4 Riposizionare i blocchi anti-sgancio

Attenzione: Le viti dei blocchi anti-sgancio devono essere strette

5 Muovere la porta verso sinistra e destra assicurandosi che il gancio del carrello sia tra i fermi dell'ammortizzatore

6 Regolare la porta affinché sia parallela al muro
